Snowmobile Trailers
JD648 and JD972 (Manufactured 1972)
JD73 (Manufactured 1973)
JD74 (Manufactured 1974, and 1975)
JD76 (Manufactured 1976)

EXPLANATION OF SERIAL NUMBER OR YEAR LISTING

Serial number information is listed parenthetically to show on which trailers each part can be used. These listings are explained by the following examples.

- () The part can be used on all trailers.
- (000000-) The part can be used on all trailers beginning with the serial number listed.
- (-000000) The part can be used on all trailers up to and including serial number listed.
- (000000-000000) The part can be used on all trailers between and including the serial numbers listed.

Where XXXXXX's are listed in place of a serial number it indicates a serial number change was made but the exact serial number had not been established when the catalog went to press.

AN EXPLANATION OF CHANGE INDICATOR LINE

New and revised information is identified by vertical lines marked on the left-hand margin of revised pages. These lines indicate changes affecting the ordering of parts.

EXPLANATION OF PARTS LISTED AS "SERVICE ONLY"

Certain parts in this catalog are listed in the description column as "Service Only". These parts serve as a replacement or additional part for service instead of the part originally furnished. The serial numbers shown list the trailers on which the "Service Only" part may be used.

EXPLANATION OF WHOLE GOODS LISTINGS

Throughout this parts catalog, whole goods items are listed in bold face type. Make separate orders for these whole goods items. Do not include them on replacement part orders.

SI (INTERNATIONAL SYSTEM) UNITS OF MEASURE

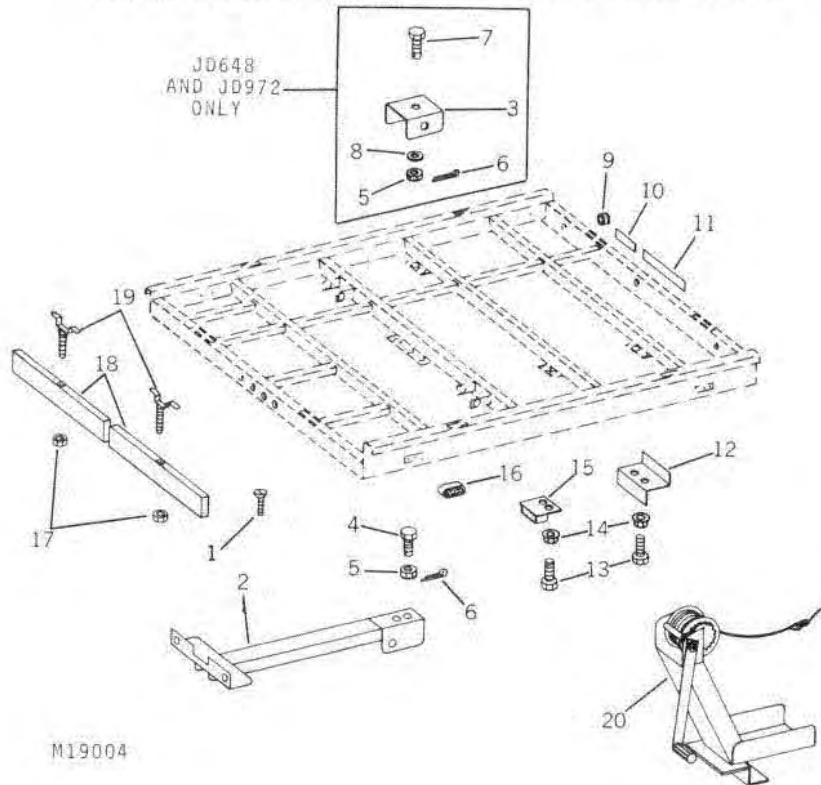

Metric equivalents have been included, where applicable, throughout this parts catalog.
