GENERAL

This catalog contains the replacement parts lists for Kawasaki snowmobiles. Always use GENUINE KAWASAKI parts for replacement to maintain the standards of reliability, performance, and safety that was designed into Kawasaki snowmobiles.

ABBREVIATIONS

yds	Yards

INDEX

Locate the system or component that requires replacement parts in the pictorial index, and turn to the page number indicated for the exploded view and parts list.

EXPLODED VIEW

Parts not shown disassembled in the exploded view are not sold separately, but are included in the complete unit or next higher assemblies as shown in the illustration.

Reference numbers connected to broken lines indicate assembly part numbers. All of the components inside the broken lines are included when the assembly part number is ordered.

Parts drawn with dotted lines are reference components used to show location of assemblies or proper positioning of replacement parts. Refer to the pictorial index to find the page number and exploded view of reference components.

PARTS LIST

Always use the Kawasaki part number to order parts. Reference part numbers for the Yamaha engine and Mikuni carburetor are provided, but should never be used to order parts.

Items in the description column preceded by a black dot indicate that this part is included in the above assembly.

The quantity column indicates the snowmobile model the part is used on and the quantity required to repair what is shown in the exploded view. (Example: The exploded view of the ski shows only one ski; therefore, the quantity column indicates the parts required to repair one ski.

GENERAL

Ce catalogue contient les listes de pièces de rechange des motoneiges Kawasaki. Utilisez toujours, et seulement, des pièces KAWASAKI AUTHENTIQUES pour préserver les normes de qualité, de rendement et de sécurité qui caractérisent les machines d'origine.

INDEX

Localisez dans l'index en image le système ou l'élément qui exigent des pièces de rechange et reportez-vous au numéro de page indiqué pour y trouver la vue détaillée et la liste des pièces.

VUE DETAILLEE

Les pièces non représentées dans la vue détaillée ne sont pas vendues séparément mais font partie de l'unité complète ou des ensembles immédiatement supérieurs, comme l'undique l'illustration.

Les numéros de référence reliés aux lignes brisées indiquent les numéros de pièces de l'ensemble. Tous les éléments compris dans les lignes brisées sont inclus dans l'ensemble commandé sous son numéro de pièce.

Les pièces dessinées en pointillé indiquent les éléments de référence servant à montrer l'emplacement des ensembles ou la mise en place correcte des pièces de rechange. On se reportera à l'index en image pour trouver la page et la vue détaillée des éléments de référence.

LISTE DE PIECES

En commandant, indiquez toujours le numéro de pièce Kawasaki. Les numéros de référence des pièces pour le moteur Yamaha et le carburateur Mikuni sont fournis, mais ne doivent jamais servir pour les commandes de pièces.

Les articles précédés d'un point noir, dans la colonne de description, indiquent qu'ils font partie de l'ensemble qui précède.

La colonne des quantités indique le modèle de motoneige auquel la pièce est destinée, et la quantité nécessaire pour réparer ce qui est représenté dans la vue détaillée. (Exemple: La vue détaillée montre un ski seulement; en conséquence la quantité indiquée dans la colonne est celle nécessaire pour la réparation d'un seul ski.)

MODEL IDENTIFICATION

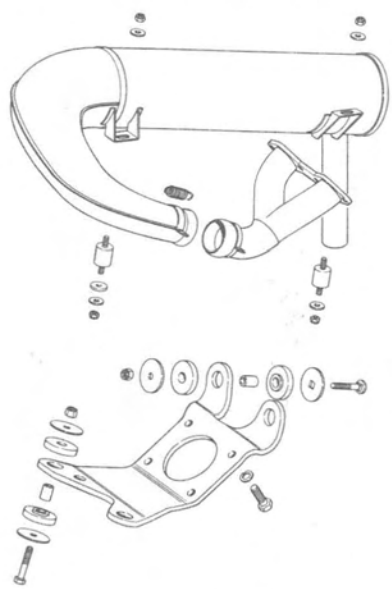

Snowmobile models are identified in the parts catalog by Marketing Code numbers. The chart contains the Marketing Code along with the Marketing Name for identification cross reference.

IDENTIFICATION DES MODELES

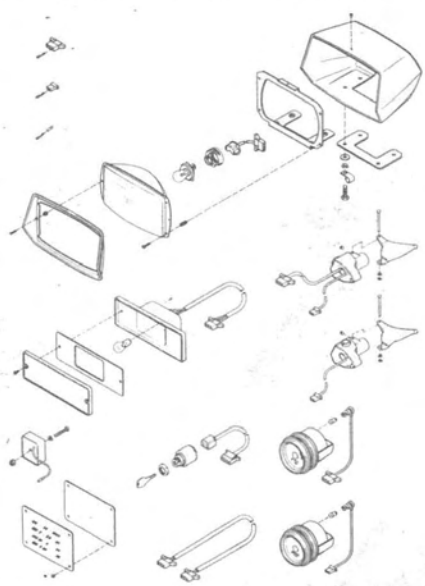

Les modèles de motoneiges sont identifiables dans le catalogue des pièces détachées par leurs numéros de code marchands. On trouvera ces codes dans le tableau ainsi que le nom marchand du modèle correspondant de motoneige.
